# Holiday Gift Extravaganza **SPECTACULAR!**

(pdf version for ease of gift-giving)

## HOW TO USE THIS GUIDE:

Just print out this guide, and then...

1. Go through and find the things from these sellers and/or sites that you really, really want.
2. Highlight or star the ones you would like to receive.
3. In the spaces provided, write down any pertinent information, such as colorways, specific items, a specific URL if there is one, or any notes that will help your loved ones find what it is that you want.
4. Hand this to them with a giant knitterly smile, explain to them what "colorway" means and whether or not substitutions are okay, and sit back and let them go.
5. Enjoy your holiday, resting assured that you'll finally get what you want, rather than yet another bath & body set in a fragrance that is reminiscent of your grandmother. And not in a good way.

## SECTION BREAKDOWN:

This guide is broken down into three sections: Books, Yarn & Fiber, and Other Stuff. There is a separate page for the MYRIAD etsy stores, since there are just too many to list. So much talent out there!

If a section doesn't apply to you, just toss it out before you give it to the loved ones. Better to not confuse them; this whole Yarn Obsession Thing is a little confusing as it is. :)
